

Richard L Barbano, MD, PhD

After completing his neurology training at Columbia Presbyterian Hospital in New York City, Dr. Barbano joined the University of Rochester in 1993 as an Assistant Professor. He joined the Botulinum Toxin Clinic, working alongside Dr. Jau Shin Lou. In 1997, he took over as Director and has trained numerous fellows in administering botulinum toxin injections during the intervening years.

Dr. Barbano has participated in many clinical trials involving the uses of botulinum toxin therapy, including the development of new products and indications. He has given numerous lectures regarding the uses of botulinum toxin and injection techniques including “Practical Applications for Cervical Dystonia and Blepharospasm” at the 2015 International Neurotoxin Association annual meeting.
